WATERPARK ASSORTMENT

The Industry Leader

- Our Industrial R & D Center Is Certified by KITA
- Our 34th Year Serving the Marine and Recreational Industry
- Production Capacity of 1,000,000 Units per year
- Auto-cutting Machines
- Combined Glue and Welding Processes
- PVC, Hypalon and Polyurethane Fabrics
- Distribution in over 60 Countries
- NMMA, Q and ISO 9001 Certified
- Products as Large as 23' Boats
- Official Supplier for IRF (International Rafting Federation)

Your Best Partner for a Successful Business

Mission : Quality • Innovation • Customer Service • Competitive Pricing

Best Quality

We use only premium quality materials in every single ZEBEC/ZPRO item. Every component and accessory - stem to stern - is top grade.

Best Value

Our products always cost less than any other inflatable of comparable quality and features. Should our products cost more, you are purchasing items with significantly better features and performance.

Best Performance

Our items inflate as tight and smooth as a drumhead. They have incredible buoyancy and glide through the water practically friction-free.

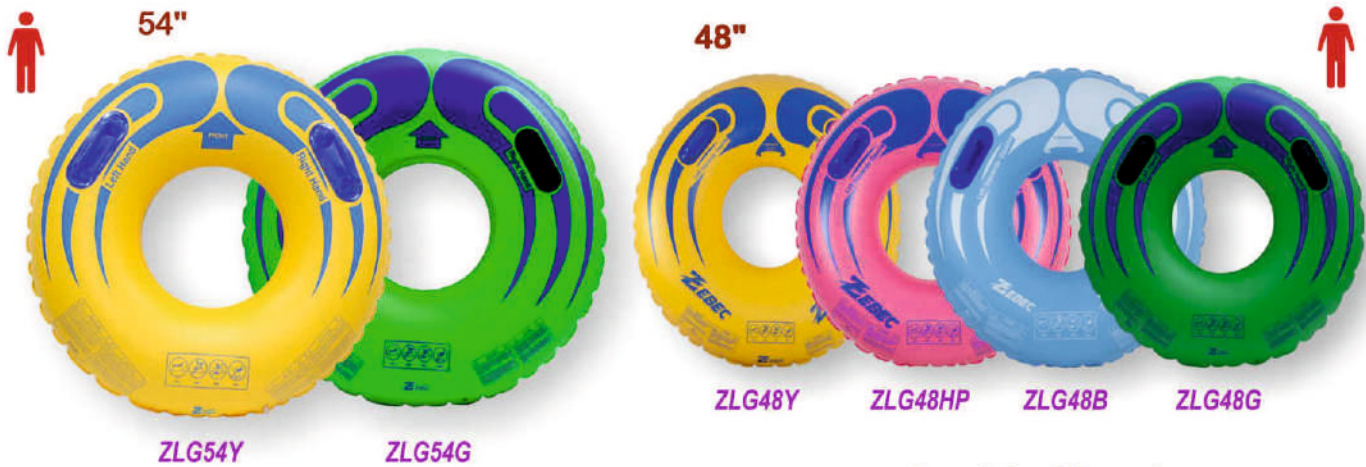

The first AEO(Authorized Economic Operator) manufacturer.
"Quick Custom Clearance without Inspection!"

Single Tube

Single tubes feature an extra strong gusset with a double inside seam. Each tube has two handles and comes packed in a poly bag. Handles are placed at 10 and 2 o'clock positions.

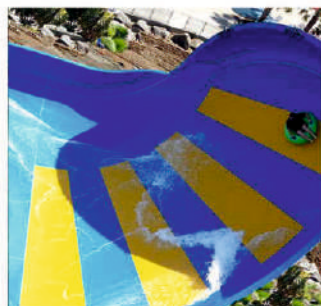

Double Chamber

Pear Tube

Extra strong gusset. Has two handles. Runs truer and features more back support. Tube is packed in poly bag. Handles are placed at 9 and 3 o'clock positions.

Clear Tube

Clear tubes feature an extra strong gusset with a double inside seam. Each tube has two handles and comes packed in a poly bag. Handles are placed at 10 and 2 o'clock positions.

Figure 8 Tube

Double tube for two riders. Extra strong gusset with double inside seam. Each tube has two handles and comes packed in a poly bag.

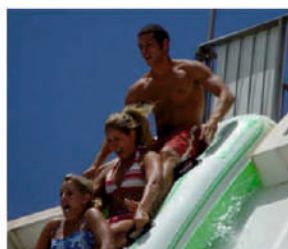

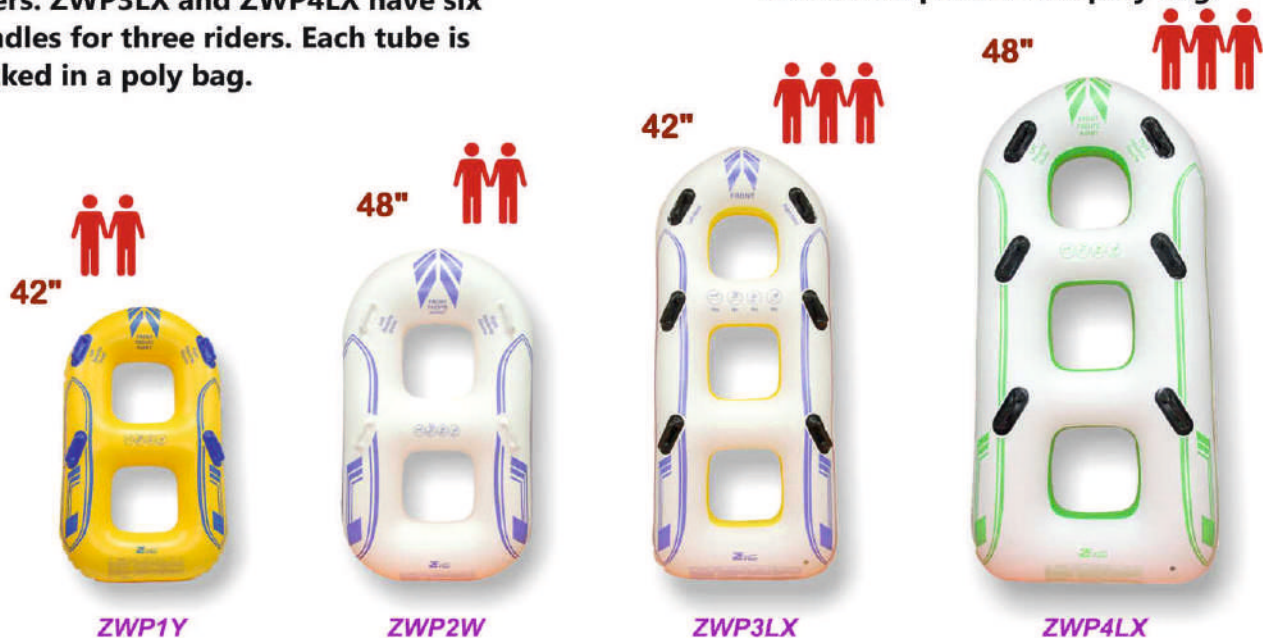

Bullet Tube

Sleek design!

Each tube features an extra strong gusset with a double inside seam. ZWP2W have four handles for two riders. ZWP3LX and ZWP4LX have six handles for three riders. Each tube is packed in a poly bag.

Triangle Tube

Triangle tubes feature an extra strong gusset with a double inside seam. Each tube has six handles for three riders and comes packed in a poly bag.

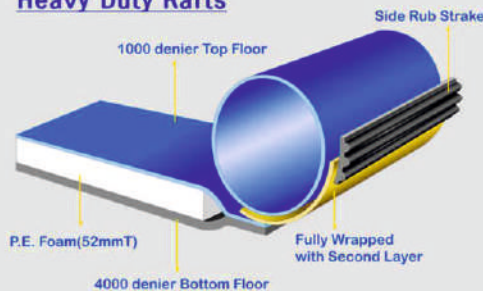

Waterpark Rafts are designed for serious fun on both small and large water slides. All rafts are built with glued, reinforced seams and comfortable floors. The floors feature a PE foam insert. With our line of Waterpark Rafts, you can now experience the excitement of a family ride at a reasonable price.

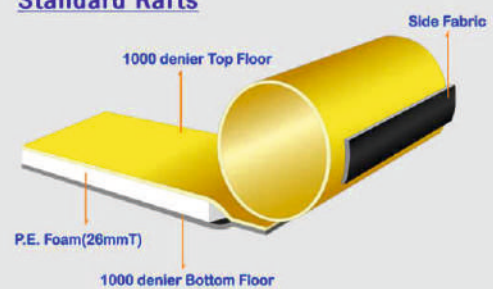

Extend the life expectancy of your raft with our heavy duty models (stock numbers ending in H):

- 4000 denier bottom floor (standard floors are 1000 denier)
- Fully wrapped with a second layer of material up to the side rub strake
- Seat belt strength handles: Available with 8 or 16 handles
